Junction Box 2

JUNCTION BOX

JUNCTION BOX

At Ecobrite, we are proud to present our high quality Junction Boxes. These are designed to be extremely durable and insulate connections in commercial and domestic projects.

These have been created for maximum protection capabilities to secure your connections.

Furthermore, they are IP68 rated, which makes them the best solution for outdoor connections. As they are waterproof and have a protective seal, you can rely on them especially during the worst of British weathers.

Our Junction Boxes are produced with a modern and sleek design. Electricians and tradesmen can easily wire and create electrical connections using our products. We provide an extensive range of junction boxes all in one place so you can easily find whatever you need.

Why choose Ecobrite?

We are the UK's leading lighting company. We are constantly innovating new products and creating truly unique, stylish lighting products for your project.

Your lighting product is one of the most important component involved in making your house into your home. It allows you to have the freedom to define and express your own unique personality. Therefore, it is vital to start from the basics and maintain perfection throughout each of your rooms for the best impression.

Visit our showrooms and see the excellent range of products we have available.

JUNCTION BOX IP68 WATERPROOF 3-WAY CABLE CONNECTORS

Junction Box IP68 Waterproof 3-Way Cable Connectors Black Electrical External Coupler for 4-14 mm Diameter Cable

- **Strong waterproof:**

The 3-Way Waterproof IP68 Cable Connector Junction Box has a high level waterproof rating. It is also Moisture-proof, Dust-proof and has an anti-UV 2 Way Plastic Terminal. Furthermore, it can be installed horizontally or vertically as an external junction box. It is also widely used in outdoor waterproof facilities. Facilities such as street lights, buried lights, garden lights and outdoor flood lights, etc.

- **Easy to install :**

The joint shell mold is integrally formed with a waterproof layer. The rotators at each end of the cable that close up the rubber are used to install outdoor lamps and lanterns connections. Hence, wiring is easy to operate, more convenient and safer.

- **High-quality materials :**

The Junction Box all are high quality made plastic. Additionally, the plastic passes certifications such as TUV, SAACE, ROHS and are 100% weatherproof. Made of high quality plastic PC housing, hence it will not crack or fade in Sunlight. The plastic is durable for years use, corrosion resistant, high temperature resistant, long life. The junction box can easily be installed under the ground.

- **Junction Box Connector :**

Delivered with a three-position terminal block. Furthermore, some of the specifications include: Terminal Block Current: 24A; Terminal Block Voltage: AC 450V .M686-2. PC housing Adaptor terminal PA9. Available Wire Diameter : 4-9mm , 9-15mm.

- **Wide Usability :**

The 3-Way Waterproof IP68 Cable Connector junction box is suitable for all kinds of LED billboards. For instance, LED tunnel lights, LED Road landscape lighting, LED outdoor display, LED garden lights. Additionally, Coastal, river, underwater engineering, underground engineering, mining engineering, solar-wind power, solar water heaters and various machinery.

CABLE WIRE JUNCTION BOX CONNECTOR - 4 WAY H SHAPE -RUBBER & CONNECTORS INCLUDED

M686-H IP68 junction box
M686-H
Waterproof Junction Box Series

Product Features

1. 24A 450VAC, T100 high temperature resistance;
2. Eco-friendly housing material, copper inner conductors, 2 pin / 3 pin / 4 pin / 5 pin available;
3. IP68 waterproof, 0.5 ~ 4mm² cross section, 4-8mm / 8-12mm / 10-14mm cable diameter;
4. TUV / CE / RoHS approval, safety and security.
