EMERGENCY

Emergency Lighting

Emergency lighting is essential for any commercial and industrial building. Our lighting will illuminate spaces and indicate where emergency exits are situated so personnel have assistance in finding the right direction to leave an area safely. Emergency lighting is usually found within offices and retail areas where there is a need for illuminating the exit areas.

These lights are a secondary light in case there is an emergency power shortage within the building or area. Therefore, it is essential you have these lights installed in order to comply with fire safety regulations.

Choose from our range of emergency lights, from emergency bulkheads to downlights, whatever it is you need, we have the solution for you.

Why choose Ecobrite?

We are the UK's leading lighting company, innovating with new products and creating truly unique and stylish lighting products for your home or project. With years of experience, we understand what it means to be a customer and the things needed to help you along the way in choosing the right light.

From our friendly customer service and expert advice to our world class products created with only the best materials. That is why we have a dedicated team to ensure that all our customers are satisfied, and their needs are taken care of.

Our aim is to help you find the perfect lighting product, whether it's for your new home, a refurbishment, commercial project or even just changing a bulb, we are ready to help. Visit one of our dedicated showrooms, with a display of all our new extensive range of products on display, our staff will help you with the process.

EMERGENCY FIRE EXIT LED SIGN - (HANGING)

This Emergency Exit Sign is suitable for installation on ceilings above emergency exits where wall mounting is not suitable or available or where double sided viewing is required. Displaying an Emergency Exit Sign is a legal requirement to inform members of the public or staff of the direction to take in the event of fire.

The fitting uses 4W LEDs and an integral supply to ensure 3 hrs of standby time in an emergency situation.

Features:

Wattage: 4W

Size: 350mm x 200mm

Battery backup: 3hrs

IP Rating: 20
