# DOWNLIGHTS

## Downlights

High quality downlights for both internal indoor and external outdoor use. Add and even amount of downlights to create a seamless lighting finish, or use individual downlights to accent parts of the area needing lighting.

Downlights are bright and luminous for a wide spread of light. Our LED lights are engineered to be as efficient as possible.

With low cost energy consumption saving you up to 80% in electricity costs. All our Downlights are fire rated as standard, including IP rated models for waterproof lighting.

The recessed ceiling downlights can be used in any parts of the home or business. This includes bathrooms, kitchens, living rooms and other areas. Each Downlight comes with a 3 year warranty as standard.

Some models will come with the option of a 3 colour changing setting, choosing between daylight, warm white and cool white options.

## Why choose Ecobrite?

We are the UK's leading lighting company, innovating with new products and creating truly unique and stylish lighting products for your home or project.

With years of experience, we understand what it means to be a customer and the things needed to help you along the way in choosing the right light.

From our friendly customer service and expert advice, to our world class products created

with excellence and quality at its core. We understand lighting better than any one.

We are here to help you find the perfect lighting product, whether its for your new home, refurbishment or just changing a bulb! Visit our showrooms and see the excellent range of products we have available.
